

*Mike Parrish completely renovated our 100-year-old house approximately 14 years ago. We were so pleased with the results we hired Mike to do extensive work on the same house 13 years later. We are very impressed with Mike's attention to detail. He is a very talented craftsman, and he is very good at assessing and repairing construction deficiencies inherent in historic buildings. Mike has the capabilities to handle all trades to complete a project. An additional bonus in working with Mike is that he is truly a nice person, who is conscientious, dependable, and intelligent. Our experiences with Mike have been wonderful, and we are planning to use Mike again when we add an addition on to our house.*
